

Natech MyFleet

Web-based fleet management software, uninterrupted fleet tracking/management system

MyFleet Overview

MYFLEET is an uninterrupted fleet tracking and management system, implemented by Natch. It is a useful tool to supervise your vehicles by real-time monitoring through the GPS technology, enhance fleet performance and communicate with all the members in the fleet every time of the day, at any place.

MYFLEET is addressed to any business, regardless of activity, having one or more vehicles. The system is placed to an independent number of vehicles and offers live display on the map for all the vehicles owned by the company.

Vehicles are a mission-critical part of everyday business activities. Better visibility leads to better decisions.

Like other business solutions provided by Natch, MYFLEET is distinguished for reliability, functionality and ease of use.

100% *customer satisfaction from the use and technical support of MYFLEET*

80 *and more businesses across Greece are already served by MYFLEET!*

Features and Capabilities

VEHICLE STATUS & LOCATION

Vehicles' tracking on digital maps in real time and actual information about the vehicle's speed, direction of movement, engine status and idle time.

ROUTE OPTIMIZATION

Automatic optimal route calculation by selecting the customers or the areas that the vehicle should visit, in order to eliminate unnecessary movements and fuel consumption .

FUEL CONSUMPTION CONTROL

Full control of each vehicle's fuel consumption so that the fleet runs as efficiently as possible.

HISTORY OF ITINERARIES

Control of the compliance to the planned itinerary through history data paths providing a detailed analysis of the movements, the attitudes and the visits to customers.

SENSOR CONNECTION

Reading data (such as temperature, humidity, etc.) from sensors and analytic presentation of all information in the form of reports and graphs.

STATISTICS

Detailed statistics to provide the overall picture of vehicle mobility with reference to the cost of fuel and the visits to customers.

MyFleet Benefits

Organization and operation of the company

Short amortization period of acquisition costs

Expenses management

Drivers' safety (SOS phone, etc.)
