

Natech

Dias Suite

Interbank Service System for
Financial Institutions

Natech Dias Suite Overview

Natech.DIAS Suite is an autonomous SEPA payment system adhering to DIAS S.A. enhanced SEPA (Single Euro Payments Area) requirements.

The system supports SEPA and SEPA modified payments (FOC, Direct Debit Payments, EBA & Equens, Target2 etc.), as well as, the general SEPA subset.

Natech.DIAS Suite implements:

- | Natech.Direct Debit
- | Natech.Credit Transfer

2 Components

01

Natech.Direct Debit

Natech.Direct Debit is the independent application which serves interbank direct services (bill payments and other financial obligations)

System counts
10 successful
implementations
!

02

Natech.Credit Transfer

Natech.Credit Transfer is the interbank system which supports the movement and settlement of orders concerning the funds transfer among the participating banks, at national and European level

Minimizes time to
market to **1 month**
after installation!

Natech.Dias Suite users list:

- | SDN & Blocked Entities
- | Loan & Consignment Fund
- | 1 Privately held bank
- | 8 Cooperative Banks
- | 2 EU Payment Institutions

Direct Debit Characteristics

Natech.Direct Debit

Natech.Direct Debit is an independent application that frames any banking system implemented on a customer-focused basis.

Concisely, the system supports the following services:

- | Orders' collection (CMF assignments/changes)
- | Creation of DMF assignments
- | Central administration of assignments
- | Debits disruption (creation & acceptance of an order)

Key factors of Natech Solutions

Adaptability
Simplicity
Security
Functionality

operational and servicing
costs!

Credit Transfer Characteristics

Natech.Credit Transfer

Credit Transfer is an interbank system supporting the movement and settlement of orders concerning the funds transfer in EURO, at national and European level, from and to credit institutions located in SEPA.

The application implements the Credit Transfer (9 products under the specifications of Interbanking Systems), a system of Interbanking Systems and is an in-dependent application that frames any banking system.

**System also incorporates Natech PAY system
(the part of overpayments) and Natech Debit.**
